

BT7896

PULL-OUT FLAT SCREEN WALL MOUNT WITH IN-WALL AV STORAGE TRAY

The **BT7896** is a versatile pull-out wall mount for medium to large screens, combining service-friendly design with adaptable functionality. Push-to-release arms allow quick rear access without removing the screen, while adjustable depth, tilt, and swivel provide precise positioning. The integrated AV tray can be removed, re-positioned laterally inside the wall bracket, or mounted to the side to avoid mains sockets and cable inputs etc. Its slim profile is ideal for low-profile or recessed installations, and features such as cable management and levelling adjustment ensure a clean, professional finish.
