Installation Safety Instructions

Caution: This mount is intended for use only with the maximum weights indicated. Use with equipment heavier than the maximum indicated may result in instability causing possible injury.

Do not attempt to install this product until all instructions and warnings have been read and properly understood. *Please keep these instructions for future reference.*

Please check carefully to make sure there are no missing or defective parts - defective parts must never be used. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire.

General

B-Tech AV Mounts recommends that a professional AV installer or other suitably qualified person install this product. Great care must always be taken during installation as most AV equipment is of a fragile nature, possibly heavy and easily damaged if dropped. If you do not fully understand the instructions or are not sure how to install this product safely, then please consult a professional for advice and/or to install this product for you. Failure to mount this product correctly may cause serious injury or death both during installation and at any time thereafter. Do not mount any AV equipment that exceeds the specific weight limit of the product you are installing. This weight limit will be clearly stated on each product and its packaging and will vary from product to product.

Product location

Please pay careful attention to where this product is located. Check load capacity of the wall prior to installation as some surfaces are not suitable for installation. Designed for indoor use, this mount is suitable for public or home installation. If located in a public or frequently populated area ensure that the product is out of the immediate reach of people. If any AV equipment is to be suspended over the likely path or location of people then great care should be taken to secure all parts of the installation from falling. When drilling holes it is essential to avoid contact with electrical cables and water or gas pipes contained within. Use of a good quality live wire detector and hidden object locator is therefore recommended. Only drill into structures when you are sure it is safe to do so.

Fixing hardware

It is highly recommended that all fixing screws be used where supplied and that the purpose of all other fixing hardware is fully understood. In some cases more AV equipment fixing hardware will be supplied to accommodate different models of equipment and set up configurations. The installer must be satisfied that any supplied fixing hardware is suitable for each specific installation. The fixing kit supplied with the product may not be suitable for all walls. If any fixing screws or included hardware are deemed not sufficient for a safe installation then please consult a professional or your local hardware store.

Hazard limitation

When routing cables take advantage of any built in cable management features that the product might provide and ensure that all cables are tidy and secure. Check to see that any moving aspect of the product can do so unhindered by any cabling. Some products have moving parts and the potential to cause injury through the crushing or trapping of fingers or other body parts. Particular attention to the nature of moving parts is required especially when assembling installing and adjusting during set up. Immediately after installation double-check that the work done is safe and secure. Double-check all necessary fixings are present and are of ample tightness. It is recommended that periodic inspections of the product and its fixing points are made as frequently as possible (no more than 6 months apart) to ensure that safety is maintained. If in doubt consult a professional AV installer or other suitably qualified person.

- CN B-Tech AV Mounts 建议本产品由专业AV安装人员或其他合格人员安装。B-Tech AV Mounts 及它的代理商、经销商不对由于不恰当的安装而造成的损失或伤害负责。本产品必须安装在合适的架构上，并仅用于不超过所标示的最大承重。
- CS Společnost B-Tech AV Mounts doporučuje provést instalaci tohoto produktu instalátora AV či jinak způsobilé osoby. Společnost B-Tech AV Mounts, její distributoři a prodejci nenesou prostřednictvím odborného odpovědnost za škody nebo zranění způsobená nevhodnou instalací. Tento výrobek je nutno umístit do vhodné konstrukce a používat jen po uvedené maximální výšce.
- DE B-Tech AV Mounts empfiehlt, dass dieses Produkt durch einen qualifizierten AV-Techniker oder eine andere Person mit geeigneter Qualifikation installiert wird. B-Tech AV Mounts, ihre Distributoren und Händler können nicht für durch fehlerhafte Montage verursachte Beschädigung oder Verletzung haftbar bzw. verantwortlich gemacht werden. Dieses Produkt muss auf einem geeigneten Untergrund montiert werden und darf nur bis zum angegebenen Höchstgewicht verwendet werden.
- EN B-Tech AV Mounts recommends that this product be installed by a qualified AV technician or other suitably qualified person. B-Tech AV Mounts, its distributors and dealers are not liable or responsible for damage or injury caused by improper installation, improper use or failure to observe these safety instructions. In such cases, all guarantees will expire. This product must be mounted on a suitable surface and may only be used up to the specified maximum weight.
- ES B-Tech AV Mounts recomienda que un instalador de audio y video profesional u otra persona debidamente cualificada instalen este producto. B-Tech AV Mounts, sus distribuidores y concesionarios no se hacen cargo ni se responsabilizan de ningún daño o lesión provocados por una instalación inapropiada. Este producto se debe montar en una estructura adecuada y se debe utilizar soportando solamente hasta el peso máximo indicado.
- FR B-Tech AV Mounts recommande de confier l'installation de ce produit à un installateur AV professionnel ou à une autre personne dûment qualifiée. B-Tech AV Mounts, ses distributeurs et ses revendeurs ne sauraient être tenus responsables de tout dégât ou de toute blessure résultant d'une installation incorrecte. Ce produit doit être monté sur un support approprié et utilisé dans la limite du poids maximum indiqué.
- IT B-Tech AV Mounts consiglia di affidare l'installazione di questo prodotto a un installatore specializzato o ad altra persona adeguatamente qualificata. B-Tech AV Mounts, i suoi distributori e rivenditori non accettano alcuna responsabilità nei riguardi di eventuali danni o infortuni causati da un'errata installazione. Questo prodotto deve essere fissato a una struttura idonea e utilizzato unicamente sino al peso massimo indicato.

Wall Fixings		
A1	St8 x 63mm Coach Screw	4
A2	M8 Washer	4
A3	N°10 Wall Plug	4

Installation Tools Required

Suitable for loads up to 125kg (275lbs)

Installation Instructions

1. Mount The Wall Bracket

Mounting a screen into a recess

Depth of recess = 101mm* (4") + Depth of screen.

*Add 6mm (0.25") if VESA 600 adaptor arms (item 4) are used.

- i. Determine the centre of the screen.
- ii. Use screen centre lines to align with centre marks on wall plate.
- iii. Mark 255mm (10") up from centre to mark the top centre hole.

Mounting The Wall Mount To A Wall

Fix item 1 to wall, use the horizontal line as a guide.

Note: The installer must ensure the quality of all fixings used are suitable for the type of wall used in the installation.

Installation Requirements

On concrete walls insert suitable wall plugs / anchors flush to the wall. Avoid drilling into the mortar joints. Drill holes at least 63mm (2.5") deep. Space the wall fixings evenly across the wall mount. Minimum distances between wall fixing screws: Width: 252mm (10") / Height: 435mm (17"). Only suitable for stud walls where the distance between the two studs centres are: 12" (305mm). Where possible use the maximum distances to help spread the load of the installation. Please refer to the technical drawing on *page 11* for more information.

I. Concrete wall

Note: The position of the wall fixings shown below are not the only option. Please choose the best positions according to the installation requirements.

II. Wood / Stud wall

Note: Use only the 4 fixing holes shown for stud wall mounting.

Note: On stud walls use a stud finder to locate and mark stud centre lines.

2. Attach Interface Arms To Rear Of Screen

Fix *items 2 & 3* to the back of the screen using the screen fixing kit (*items A-J*).

Note: *Items 2 & 3* can mount screens with fixing patterns from 200 x 100mm up to 400 x 400mm.

Note: Use spacers (*items H, I & J*) for screens with recess fixings.

VESA® 600 Interface Adaptors

To mount screens with VESA 600 x 400mm fixings attach *item 4* to *items 2 & 3* using *item 5*.

3. Hook Screen Onto Wall Mount

Hook the screen onto *item 1*.

Note: Ensure the safety screws on the bottom of *items 2 & 3* are not tightened.

Note: Popped out position is optional. On non-recessed installations screens can also be mounted if bracket is closed.

Note: Safety screws need to be in the unlocked position. Tighten safety screws once screen is mounted

Note: Ensure the bottom interface arm hooks are properly mounted onto the wall plate.

4. Screen Alignment Using Micro-Adjustment

- i. Check the horizontal centre of the screen is aligned with the horizontal centre of the wall mount to *item 1*.
- ii. Using a level, align the screen parallel to the floor using the Y axis adjustment screws.
- iii. Use the Z axis knob to ensure that each corner of the screen is equidistant from the wall.
- iv. When the screen is positioned correctly, tighten the safety screws on *items 2 & 3*.

5. Servicing The Screen

To service the screen, push the screen and the mount will release and move out from the wall.

Note: Be careful not to damage the screen when pushing. Keep hold of the screen as it moves outwards.

Note: Push at the top and bottom of the screen on the bezel. To avoid any screen flexing (and when spacers have been used) apply light pressure in-line with the interface arms, pushing alternative arms at the top and bottom simultaneously.
